

Hair and Beauty

If you want to combine creativity with providing great customer service, a career in hair and beauty could be just right for you.

We can train you to become an industry-ready stylist or beauty therapist. Related careers include: barber, technician, creative director, salon manager and teacher/trainer/assessor.

With us, you will develop both your technical and employability skills, while offering a wide range of treatments to paying customers in our salons. You will also benefit from masterclasses run by guest therapists and take part in local events and competitions.

We also offer evening and weekend courses for anyone keen to explore this exciting area in a fun, hands-on environment.
