

Health, lifestyle, counselling

Health, lifestyle, counselling

We are here to help

Life sometimes brings different pressures and stresses. If you study with us, we will be there to offer additional support if required.

Counselling from our experienced staff is available, helping you to keep your life in order while you study.

We offer support to all our students concerning:

- Relationships
- Physical, sexual or emotional abuse
- Bereavement and loss
- Work or study problems
- Anxiety and depression
- Other health related issues including disabilities and eating disorders

Succeeding in your studies relies on much more than lessons and curriculum. We give you the support to achieve your ambitions.
